

Sage ERP Accpac

Version 6.0

Edition Comparison Overview

We believe your ERP solution should support your business strategy – not hinder it or force you to buy too much too soon. That’s why Sage ERP Accpac offers scalable editions on which to build your business. If your business plans involve adding more employees, supporting multiple or global operations, diversifying or offering new services, Sage ERP Accpac provides a strong foundation. Choosing Sage ERP Accpac gives you the flexibility to build the best possible solution for your business by giving you the freedom to select the edition (100, 200, or 500), database, modules, deployment method, and payment options that keep your total cost of ownership as low as possible.

Easily adopt new functionality without retraining your staff, as each Edition is built using the same technology and intuitive workflow.

Superior Architecture

As your business looks for cost-effective ways to meet your bottom line, Sage ERP Accpac provides the foundation required to keep pace with ever changing technology without giving up the functionality required to compete in today's marketplace. Accelerate the growth of your company with the scalable, open architecture of Sage ERP Accpac, no matter what Edition you choose, you have the option to utilise a Microsoft SQL database, Pervasive.SQL or Oracle, as well as multiple server and client operating systems, and customisation tools.

Global Reach - Local Touch

An international presence is not only important for modern enterprises, it is essential. Empower your organisation with the tools required to easily maintain international currency standards. Sage ERP Accpac provides you the power you need to easily support multiple entities (intercompany and consolidations), languages (by user), currencies (recognised gain/loss or unrealised gain/loss accounting methods), and so much more.

Built to Fit Your Business

Sage ERP Accpac helps you slash the time and cost of complex processes and redirect those resources toward growing your business. Whether you choose the 100, 200 or 500 Edition, you can select from any of the Sage ERP Accpac applications to create a custom-fit solution to support your end-to-end business management requirements.
